DETAILED ACTION

Response to Amendment

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Response to Arguments

2. Applicant's arguments, see response , filed Jul 25, 03, with respect to the rejection(s) of claim(s) 1-8 under 102 and 103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Paul Kohl et al.

Claim Rejections - 35 USC § 102

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claim 1 is rejected under 35 U.S.C. 102(a) as being anticipated by Paul Kohl et al. "Wafer-Level Packaging Addresses ... Interconnections", Apr '01.

With respect to claim 1, Kohl et al. teach a structure for providing resilient interconnections in a wafer level package, comprising a conductive pad overlays an air space, wherein at least a portion of the air space extends laterally beyond the conductive pad. See fig 1. and its associated text of Kohl et al.

Allowable Subject Matter

4. Claims 2-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
